REQUIRED HEALTH SCREENINGS & PREVENTION SERVICES FOR EARLY LEARNING ESSENTIALS

Dear Health Care Provider:

Early Learning Essentials is a private, nonprofit agency that serves low-income children and families within our community. The ELE program provides free comprehensive services to eligible families.

Federal regulations require that Head Start programs follow Medicaid's (Utah's CHEC) schedule of well-child care and screenings.

All ELE children must receive the following preventive health care services:

- a physical examination including –
height and weight
blood pressure
vision and hearing
- appropriate laboratory screenings including –
hematocrit or hemoglobin
- **immunizations** appropriate for the age of the child and for entry into an early childhood program

We appreciate your support in meeting Early Learning Essentials' federal and Utah's CHEC requirements in these areas.

If you would like more information about the Utah CHEC health screening requirements, please contact the Utah Department of Health. If you have any questions about Head Start services and/or requirements, you may contact me at 801-375-7981 ext. 107.

Sincerely,

Jan Burroughs
Health & Nutrition Services Director
